

Contractor Benefits of RELOC® Wiring Solutions:

- Lowest installed cost compared to MC Cable
- On-site labor can be reduced up to 70%
- Significant time and money savings
- Enhanced project management
- Easy-to-install

Test Drive RELOC® Wiring Today and Leave MC Cable in Your Rear View Mirror

We are confident RELOC Wiring Solutions will save you time and money when installing lighting fixtures. You can test drive RELOC for just \$1 per component! Leave MC Cable in your rear view mirror and start putting more money in your pocket today!

The Test Drive program is intended for first-time RELOC Wiring Solutions users only.

How does the Test Drive program work?

- Identify 35 new fixtures in which to install RELOC Wiring Solution.
- Contact your local **Acuity Brands Lighting Representative** to order the material you need at the cost of \$1 per component. Qualifying material is specific to lighting fixture cables and accessories.

We would appreciate your feedback

- Conduct time studies at installation
- Email us at **ProductSupportReloc@AcuityBrands.com** and let us know
 - How does the installation time of RELOC compare to MC Cable?
 - How much skilled labor was required compared to MC Cable?
 - Would you consider using RELOC on future projects?

In exchange for your feedback, we'll send you some RELOC SWAG. It's that easy!
